SKILLS

Ruby, Rails, React, Redux, RSpec, SQL, PostgreSQL, MongoDB, Mongoose, JavaScript, jQuery, HTML5, CSS3, Node JS, Apollo, GraphQL, Express, AWS S3, Object Oriented Programming, Webpack, Heroku, Git

PROJECTS

Daily Prophet | *(Ruby, React, Redux, Rails, JavaScript, HTML5, CSS3, PostgreSQL, jQuery, Heroku)*   **live** | **github**

- Implemented the use of a modal for users to login and signup right on the splash page without having to be redirected to another page by taking advantage of **Redux's** state management.
- Maintained consistent state through the use of **JBuilder** by structuring the state on the backend before it is passed to the frontend.
- Utilized **Rails** relational database management to create relationships between users, stories, claps, and images.

ROYGBIV | *(JavaScript, HTML5, CSS3, DOM, Git)*   **live** | **github**

- Creatively created and appended elements directly to the **HTML** page by accessing the **DOM** instead of using canvas.
- Capitalized on the use of the **DOM's** event listeners to determine when a game has been won or has ended.
- Dispatched a modal to display game rules by accessing the **DOM's** event listeners and on click handlers.

Rise | *(MongoDB, Express, React, Node JS, Mongoose, HTML5, CSS3, AWS S3, Heroku)*   **live** | **github**

- Utilized **AWS S3** to implement the photos needed by reducing the server load and allowing for scalability of image usage.
- Constructed RESTful API by utilizing **Express** framework.
- Achieved backend modeling by utilizing **MongoDB** as the database and **Mongoose** for object-relational mapping for model setup.

EXPERIENCE

Sales Specialist
Apple   Aug 2015 - Dec 2017

- Refined leadership skills through sharing product knowledge with peers as well as speaking during morning meetings.
- Applied critical thinking when problem solving technical issues.
- Developed personal character as well as technical skills by setting goals with my team leader during bi-weekly meetings.

Real Estate Agent
Keller Williams New Jersey Metro Group   May 2019 - Nov 2019

- Enhanced the skill set needed to effectively work within a team through daily meetings, communication, and planning.
- Explored creative solutions for prospecting for new clients.

EDUCATION

Bloomfield High School - Diploma, 2007 - 2011
West Essex Community College - *Computer Science, 2011 - 2012*
William Paterson University - *Computer Science, 2013 - 2014*
AppAcademy - Trained my full stack engineering skills by completing 1000 hours in an intensive program, 2019 - 2020
